

## Français 2H Computer Project

### Rigolos, les ANIMAUX!

You and your partner will create a slide show (Google Slides/Docs) depicting an animal of your choice from each of the following categories:

- Un animal de la ferme
- Un animal de la forêt
- Un animal de la jungle
- Un animal de la savane
- Un animal du désert
- Un animal aquatique
- Un animal de compagnie
- Un animal du pôle nord
- Un insecte

You will be required to have a minimum of 6 (3 slides if you work alone) slides using appropriate vocabulary and verbs. Each slide should include at least 25 words of text. You should have a photo which shows your animal in the habitat.

Share your work with me!

#### REQUIREMENTS:

Each slide will contain the following information (Write in full sentences):

- the name of the animal
- where the animal lives
- what the animal eats
- a physical description of the animal
- at least one interesting fact about the animal
- a minimum of 25 words per slide
- a 7 word vocabulary list showing new words you have learned.
