

Projet: La francophonie au monde

You and your partner are playing the roles of bloggers from Paris. You will be preparing a visual and spoken report for l'OIF (Organization internationale de la Francophonie)

You are going to add some podcasts about the French-speaking world to the company's blog.

You will choose one francophone country or territory. (European France is not an option.)

This project is completely spoken. You will create a dialogue in different settings throughout your chosen location of 30-45 seconds (minimum)

Each dialogue should state :

- Where you are and what you are doing
- What you think about the place
- How the place differs from your home in Paris

Each partner should speak equally. Use Google Slides or Power Point and record a separate narration file. Share your work with me.

You must research real places and facts for your project

Illustrate each dialogue with at least 2 photographs per blog entry.

Choose any 5 topics :

- La cuisine locale (a restaurant, a special dish or recipe)
- La musique locale (a music genre or music festival/concert)
- Un musée culturel
- A local celebration
- Une visite dans la nature
- Un événement sportif
- Un endroit du patrimoine historique
