

## Une baladodiffusion : À la découverte du Québec

You and your partner are writers for the French travel guide, le Petit Futé (The Clever Little Fellow).

Groups of 3 may add an American writer and lengthen each dialogue by 30 seconds.

You are going to add some podcasts about Quebec to the company's blog

You will choose a Québécois city from the list below.

This project is completely spoken. You will create a dialogue in different settings throughout your city of 60 seconds (minimum)

Each dialogue should state :

- Where you are
- What you think about the place
- How the place differs from your home in Paris (or New York –groups of three)

Each partner should speak equally. Use Powerpoint or Photostory. Record directly into your slideshow. Save to the group share folder.

You must research real places and facts for your project

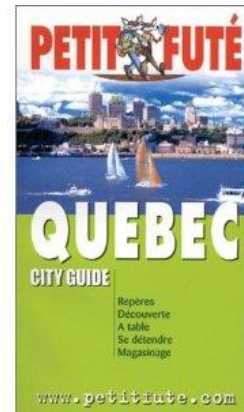

Illustrate each dialogue with at least 2 photographs per blog entry.

Choose any 5 topics :

- A restaurant (must discuss a local specialty)
- A concert (must mention French-Canadian music)
- A cultural museum
- Le carnaval
- Une visite dans la nature

- A historical place
